Aktuálna materiálovo-cenová ponuka oblekov pre freediving od ELIOSu. (Stav k 10.9.2009)

Z pôvodného mailu: (začiatočnícke očakávania)

My expectations:

- As beginner pool training
- In our lakes it is colder water, so between (23 – 6 in winter degrees Celsius)
- Max deep for me is 25 m next two years
- No spear fishing in plan
- No experience in wearing
- Twice a year Croatia freediving

I am thinking about something warmer 5-7 mm
I can use shampoo to get in ☺

Please send me 2-3 options.

Hello,

Thank you in advance for this contact and about your indications, we can suggest you several solutions:

FIRST: You want a tailor made suit, thickness 5/6mm, complete of jacket closed with hood incorporated + high waist pants, to use for freediving.

SECOND: your preference are for:

- elasticity

- warmth (in this case the coating cell or open cell are the best)

- good resistance against tears (in this case must have the lining one side)

- color black

OPTIONS:

1) Suit 5mm open cell inside / Nylon elastic Black outside Neoprene Heiwa Price **Euro 205,00** This is the best-seller for freediving, very elastic, warmth, aderent to the body, durable with lining outside and good also for deep divings, but for get into must use always talkum or water-soap. (available also in 6mm thickness)

2) Suit 5mm New Black coating cell inside / Nylon elastic Black outside Neoprene Heiwa Price **Euro 245,00** (see Pict.1) This is the Top-model for freediving, very elastic, warmth, aderent to the body, durable with lining outside and good also for deep divings, but also very slippery to get into. (available also in 6mm thickness)

3) Suit 5mm Superelastic lining inside / Superstretch Blue or black lining outside Neoprene Heiwa soft density Price **Euro 235,00** it's the most elastic suit in the world, super-soft, super-comfortable, easy to wear like a t-shirt and durable.

4) Suit 5mm open cell inside / Smoothskin black outside (see Pict.3) Neoprene Heiwa Price **Euro 200,00** This is the best-seller for freediving competition, very very elastic, warmth, aderent to the body and very very comfortable, but for get into must use always talkum or water-soap and also very very delicate against tears or rips. (low water-resistance)

5) Suit 5mm new black coating cell inside / Smoothskin Black outside Neoprene Heiwa Price **Euro 240,00** it's top-model suit for apnea, very elastic, warmth, aderent to the body, good deep divings but also very slippery to get into and also very very delicate against tears or rips. (low water-resistance)

6) Suit 5mm open cell inside / Smoothskin Black outside Neoprene Yamamoto 45 (see Pict.4) Price **Euro 235,00** it's a super-soft rubber, very elastic, warmth, aderent to the body, perfect for divings around 25/30mts, but for get into must use always talkum or water-soap and also very very delicate against tears and rips. (low water-resistance)

7) Suit 5mm Superelastic lining inside / Smoothskin black outside Neoprene Heiwa Price **Euro 235,00** it's the the most elastic suit in the world, super-comfortable, easy to wear like a t-shirt and more more durable with lining inside. (see Pict. 5) (low water-resistance)

8) Suit 5mm Nylon elastic Green inside / Smoothskin Black outside Neoprene Heiwa Price **Euro 215,00** it's the ultimate solutions, very elastic, easy to wear without lubes, comfortable, durable and reversible. (can wear on both side, depend from your needs, see Pict.6) (low water-resistance) (available also in 6mm thickness)

9) Suit 5mm Open cell inside / Nylon stretch Black outside Neoprene Ecoline Price **Euro 165,00** it's a classic freediving suit, perfect for shallow divings, very very soft neoprene, very comfortable, warmth and aderent to the body, but for get into must use always talkum or water-saop. (available also in 6mm thickness)

10) Suit 5mm Titanium coating cell inside / Nylon stretch Black outside (see Pict.2) Neoprene Ecoline Price **Euro 195,00** it's a classic freediving suit, perfect for shallow divings, very very soft neoprene, very comfortable, warmth and aderent to the body, but also very slippery to get into.

11) Suit 5mm gold coating cell inside / Smoothskin Black outside Neoprene Yamamoto 45 Price **Euro 275,00** it's a super-soft rubber, very elastic, warmth, aderent to the body, perfect for divings around 30/50mts, but for get into must use always talkum or water-soap and also very very delicate against tears and rips. (low water-resistance)

12) NEW Suit 5mm open cell inside / Nylon Superstretch Hydro-repellent outside Blue (see Pict.7, not available in black) Neoprene Heiwa soft Price **Euro 235,00** This is just arrived, ultra-soft, super-comfortable, durable and fast-dry outside like a smoothskin (the nylon not absorb the water) but durable like nylon, for get into must use always talkum or water-soap.

13) Suit 5mm open cell inside / Kanoko superstetch antitears outside Black Neoprene Heiwa soft Price **Euro 225,00** It's an ultra-soft rubber, super-stretch, very very comfortable and very very durable with kanoko reinforced lining outside, but for get into must use always talkum or water-soap.

14) Suit 5mm gold coating cell inside / Nylon stretch Grey outside Neoprene Yamamoto 45 Price **Euro 285,00** it's a super-soft rubber, very elastic, warmth, aderent to the body, perfect for divings around 30/50mts, durable and very very slippery to get into.

15) Suit 5mm nylon standard blue inside / Nylon stretch Black outside Neoprene Ecoline Price **Euro 165,00** it's the base model for freediving suit, perfect for shallow divings, very very soft neoprene, very comfortable, comfortable, durable, easy to wear and also reversible. (available also in 6mm thickness)

16) Suit 5mm Superelastic Thermic touch lining inside / Smoothskin black outside Neoprene Daiwabo High density Price **Euro 285,00** it's the latest new, ultra-comfortable suit, easy to wear like a t-shirt, soft-touch skin inside, very very warmth and good also for very deep divings. (low water-resistance)
